What coaching singles revealed about trust, influence, and performance under pressure, and how leaders can apply those lessons to navigate high-stakes relationships.

Credentials

Biography

Over the past 14 years, I've coached leaders in professional services, health care, and financial organizations and delivered training attended by 10,000+ leaders globally.

My experience includes leading enterprise-wide initiatives for multi-billion-dollar companies to redefine leadership expectations, success measures, selection processes, and training.

Training C-suite executives to first-time managers showed me the mindsets and behaviors that separate good leaders from great leaders.

Now, I use proprietary assessments, coaching programs, and workshops built to balance the hard business metrics with the human side of leadership.

Everything is designed to measure the success factors that drive leader effectiveness and team performance, so leaders can spend less time firefighting and more time focused on strategy and growth.

Executive Leadership Training Overview

I created the Core Connections Leadership Framework™ as a practical roadmap for leaders to blend **strategic clarity** with **emotional intelligence**, so leaders not only achieve results but also create workplaces where people thrive.

Service offerings include a **propriety assessment of leadership behaviors** in the eight focus areas, coaching, and workshops with **structured training from a library of 26 Executive Leadership Academy topics**, ensuring your development is not only personalized but also backed by proven best practices across self, team, and business leadership.
